Subject: NFB Equipment/Radeco

Hi Guys:

Do we have an air flow calibrator for the Radeco?

I will be in Monday morning with Weston to pick up the rad equipment.

It will be the same equipment we used at holy trinity. The ERT equipment (the two Ludlum 2241 3x3 probe units and the two HPIC), our Ludlum 2241 with 2x2 probe, the viper equipment, the data rams and links. One buggie. The 3030 with sources. The HPIC sources in tin. I will get a better list this week.

Thanks

Regards,

Eric
